
KOERS VOOR MORGEN

One trajectory. One dossier. One line to closing.

A standalone M&A due-diligence platform for advisers and deal teams, and senior M&A expertise for complex transactions.

THE REALITY OF M&A TODAY

Fragmented tools. Scattered oversight.

A typical due-diligence trajectory involves hundreds of documents, dozens of open questions and actions across several parties. When information splinters across spreadsheets, e-mail threads and separate datarooms, the adviser loses grip on what is missing, what is delayed, and where the risk sits.

Scattered spreadsheets

Outdated versions, no single source of truth.

Endless e-mail threads

Questions and answers lost between inboxes.

Separate datarooms

One per phase, none of them talking to each other.

Untracked calls & notes

Decisions made, nowhere logged.

ONE BRAND, TWO INDEPENDENT PROPOSITIONS

**Each works on its own.
Together they cover the
whole transaction.**

PLATFORM

For M&A advisers and deal teams

Run the whole transaction in one environment: dataroom per due-diligence category, AI signals, Q&A and actions on the documents, progress per phase.

M&A EXPERTISE

For boards, shareholders, PE and deal teams

Experience, judgement and control on complex transactions: strategic rationale, negotiation, due diligence, closing and post-merger integration.

HOW THE TWO FIT TOGETHER

Understand → Decide → Realise

PLATFORM

Understand

Documents, signals and analyses come together into a single file.

MARCEL

Decide

Experience and judgement on the choices: scenarios, negotiation, cutting knots.

MARCEL

Realise

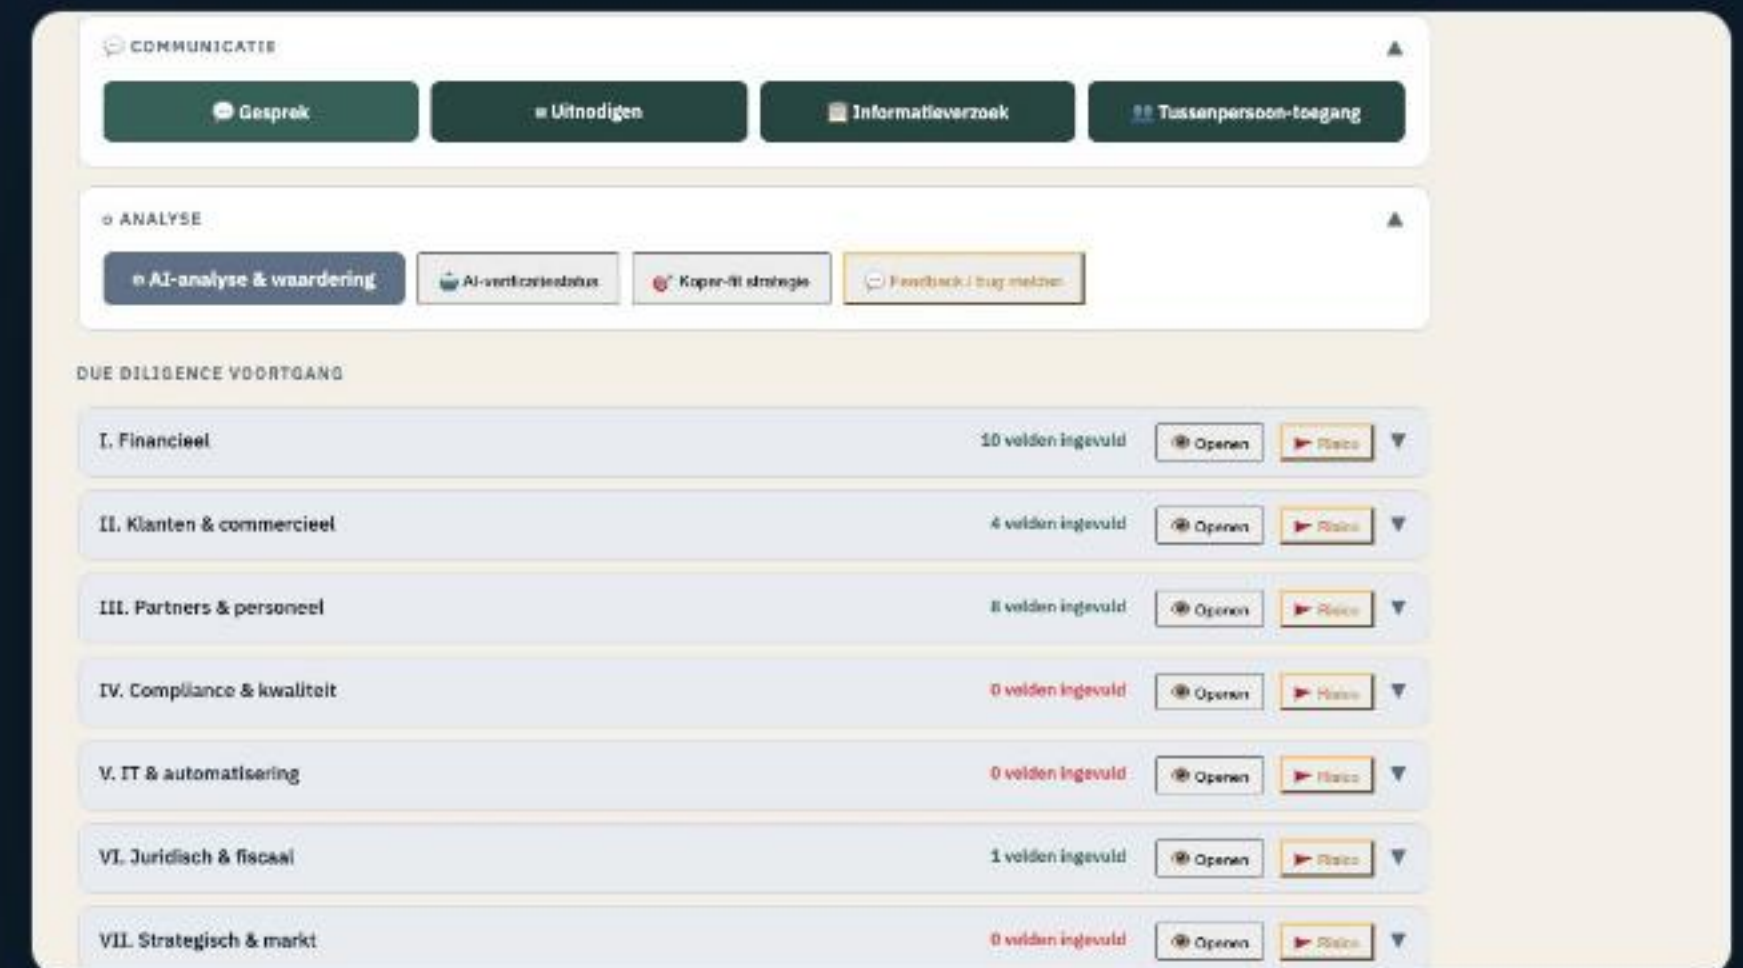

Execution after closing: integration, PMI and value creation.

| The platform delivers the intelligence. I
bring the judgement and the execution.

INSIDE THE PLATFORM

Documents structured. Coverage tracked per phase.

- All parties, one environment
- Dataroom ordered per due-diligence category
- Q&A and actions attached to the documents
- Roles and phase-based access
- Progress per phase, in one view

AI THAT GUARDS THE FILE

The AI signals. You decide.

Missing document

"For phase 2 the lease for the office is missing."

Inconsistency

"Revenue in the annual accounts differs from the client overview."

Action required

"This question has been open for 9 days."

It never fills in missing data on its own and makes no assumptions. The judgement stays with the adviser.

ONE DOSSIER, ALWAYS CURRENT

Coverage, signals and what's left, in one view.

I. Financieel

Kwaliteit en duurzaamheid van omzet en winst.

Deze cijfers vormen de basis voor de waardering en het dealvoorstel. Vul ze zo volledig mogelijk in en onderbouw met de gevraagde jaarrekeningen — hoe vollediger, hoe nauwkeuriger de waardering die hieruit volgt.

Fase 1 — Oriëntatie (pre-LoI)

Na ondertekening van de LoI ontvangt u aanvullende vragen voor de volledige due diligence.

Document toevoegen

☐ Extra controle (dubbele AI-analyse)

☐ Alleen als bewijsstuk toevoegen (geen AI-analyse)

Ook een SBR/XBRL-jaarrekeningbestand kan hier geupload

SECURITY & DATA

How transaction data is handled.

Storage in the EU (Frankfurt, ISO 27001 / SOC 2), encrypted transport, role and phase access, observers read-only and revocable, AI processing under standard contractual clauses, deletion 14 days after a transaction is closed, and a technically enforced separation between the transactions of different advisers.

BEYOND THE PLATFORM

A free entry point, the platform, and reach beyond it.

FREE, NO OBLIGATION

Strategic scan

A short diagnostic on succession, valuation and operational readiness before a sale.

THE CORE

Koers voor Morgen platform

The dataroom and process environment for the whole transaction.

OPTIONAL MODULE · BETA

Anonymous buyer matching

Within a running transaction, reach extra buyers anonymously on sector and region. Currently in beta, tested with a limited number of advisers.

M&A EXPERTISE · MARCEL BISSCHOPS

When a transaction gets complicated, experience is not a luxury.

Around thirty years at the intersection of strategy, governance, transactions and execution: as COO of a national accountancy organisation, as chair of an investment holding, and on both sides of the negotiating table in mergers and acquisitions.

20+ transactions, buy and sell side · ~30 years boardroom & transaction practice · KPMG partner track · references on request
